

A Million Ways To Love You

Charlie Wilson

Oooh

Oh, baby

There's a million ways, a million ways to love you baby

Girl it don't have to be February fourteenth

(There is million ways to love you)

Wanna make every day Valentines when you're with me

(I got a million ways to love you)

Kick off your shoes baby leave it to me

Girl just relax what you need is TLC

Take a nap pinch yourself when you wake up this ain't a dream

(I got a millions ways to love you)

Actions speak louder than words, baby

So I'll show you instead

With you I wanna share it all

There's only 60 seconds in a minute, yeah

365 days a year

Trying to find the words but they can't compare

There's a million ways to love you

A million ways to love you

There's only 26 letters in the alphabet

88 keys on a piano, yeah

But when it comes to you baby it's ain't less

There's a million ways to love you

A million ways to love you

Good God of mine looking fine go ahead and dim those lights

(There's a millions ways to love you)

Work you up, make you sweat, gonna be raining inside

(I got a million ways to love you)

Touch on you, touch on you leave my fingerprints

Right on your heart so you always let me in

Get ready for the marathon, stop!

Let's do it again, again

(I got a million ways to love you)

Actions speak louder than words, baby

So I'll show you instead

With you I wanna share it all babe

There's only 60 seconds in a minute, yeah

365 days a year

Trying to find the words but they can't compare

There's a million ways to love you

A million ways to love you

There's only 26 letters in the alphabet

88 keys on a piano, yeah

But when it comes to you baby it's ain't less

There's a million ways to love you

A million ways to love you
