

# Can't Live Without You

Charlie Wilson

Ooh I

I can't live without ya. I can't live without ya.

Girl you got me shook, after all of the fighting and the screaming  
snatched up the keys then you got in the range knowing that  
its raining

(why'd I let you go) I don't know how long it took but I know  
that I drove all around,

Trying to calm you down wouldn't answer my calls, now I'm scared  
girl where'd you go

Damn girl why'd you leave like that? whatever I said didn't mean  
it like that,

How you expect for me not to fight back when you scream like that,  
girl I love you more than that.

The other night at the club when I hit off a blunt. I love you  
more than that.

When I smile at a butt cause your all that I want.

I can't forgive myself if I hurt you girl what do I do. I can't  
live with ya, I can't live without ya.

And girl it breaks my heart if I broke your heart what do I do?  
I can't live without ya girl I can't live without ya baby I don't  
care if I'm not alright

If I could just love you tonight I can't forgive myself if I hurt  
you girl what do I do I can't live with ya I can't live without  
ya girl

Wish I could tell you how I feel, everything that I'm working for  
is yours

How could I ignore when I wanna be yours girl I slam the door  
(right on our love)

Girl a man don't understand the difference between a penny and  
a dime must of lost my mind

You and me was on the grind once upon a time (why'd I let you  
go)

Girl when I find ya I'm gone stand right by ya girl your my  
life and I can't live without you
