

Dance Tonight

Charlie Wilson

Baby I chose you, the one for life
Would you let me show you and change your mind
Know that I want to see that smile
Heaven just opens when you're around

Said it just don't matter when we're together, perfect cabaret
And put those fancy shoes on and we gon' dance all night
I got to wake this morning, promise you one thing
With you here and this song you get that feeling

I will make you dance tonight
I will make you dance tonight
I will make you dance tonight
I will make you dance tonight
(I'm gonna make you dance tonight)

I want to, I called you right
Come and let me hold you on through the night
Stop it will [?] you, and I'll last the life
Tell me what you want girl, it's my desire

Said it just don't matter when we're together, perfect cabaret
And put those fancy shoes on and we gon' dance all night
I got to wake this morning, promise you one thing
With you here and this song you get that feeling

I will make you dance tonight
I will make you dance tonight
I will make you dance tonight
I will make you dance tonight
(I'm gonna make you dance tonight)

Heaven, in your eyes
The sun when you smile
One thing I know for sure
We'll dance in final, yeah
Make the horns blow
Then you said it again

I will make you dance tonight
I will make you dance tonight
I will make you dance tonight
I will make you dance tonight
(I'm gonna make you dance tonight)
