

Gold Rush

Charlie Wilson

I'd love to take
You to our place
You ain't never been
Yes explore our mains
You won't regret it
Don't second guess it
Trust your instincts
Use your senses baby

Ain't goin' be no sleepin' till we done
Let's explore the peak of the unknown
All this energy between us
Baby all I mean is what you want and you gold

Then I'm gone
It's a gold rush, gold rush
It's a gold rush
It's a gold rush
Let's not lose it babe

Your expectations, I'll reach
You ain't gotta speak
I know what you then crave
You're so persuasive, illuminating
This ain't no dream, this reality

Ain't goin' be no sleepin' till we done
Let's explore the peak of the unknown
All this energy between us
Baby all I mean is what you want and you gold

Then I'm gone
It's a gold rush, gold rush
It's a gold rush
It's a gold rush
Let's not lose it babe

Your place of mind, look me in the eye
Stop wasting time and taste the wine
Taste the shine, taste your lips
Now you gotta taste the mind
Tangle right in, twist the lines
Ship the wine, mix with mine
Not here to skip your mind
Whip you fine and tasting tips of vibe
This is why, you better put enough on me
Gold rush on me, fluff when I puff on me
Be a whole and ruff on me
Lie down, probably put a cuff on me
Wrap in a ribbon, don't unroll it
And I think that we can go so far away
To a place that, you embrace that
We can love lay
You're livin' a day, your love is so good
You might as well give it away
So choosy baby, charming and sloppy baby

Then I'm gone
It's a gold rush, gold rush
It's a gold rush
It's a gold rush
Let's not lose it babe
