

Hey Lover

Charlie Wilson

Find what I was searching for, you're the perfect package
But you make mine and more
It's been hard to make
Hanging out with all these other girls
But it ain't my thing
I'm gonna keep it real, girl I know that you'll be on with me

Hey lover, love the way you working
The chemistry is perfect
Let's talk here over babe so you can tell me what you like
Hey lover, lover
Fulfilling what I'm not, (lover)
Let's go on undercover and break each other off
A little bit of love tonight
Yeah, feel me

Wander what you thinking bout
But I ain't worry
Knowing that I'm gonna make you mine
But I'm not in a hurry
Honey just relax and vie, enjoy the lovely bed
Before the night is over
I'm gonna hear you say

Hey lover, love the way you working
The chemistry is perfect
Let's talk here over babe so you can tell me what you like
Hey lover, lover
Fulfilling what I'm not, (lover)
Let's go on undercover and break each other off
A little bit of love tonight

Hey lover, lover
Fulfilling what I'm not, (lover)

A little bit of love tonight
Yeah, feel me

Open your eyes, know we look sexy in each other arms
Can you feel me babe?
When we together ain't no pressure
When you and me
Ain't nothing
I want you love
Don't think I'm crazy
Ain't nothing shame, I'm o this ground to make you my lady
Ain't nobody better, ain't nobody better
Can't nobody do it, can't nobody treat me like you do
Ain't nobody better
Can't nobody do it, can't nobody treat me like you do

Hey lover, love the way you working
The chemistry is perfect

Let's talk here over babe so you can tell me what you like
Hey lover, lover
Fulfilling what I'm not, (lover)
Let's go on undercover and break each other off
