

# Just Like Summertime

Charlie Wilson

Ooh baby, yeah  
Girl you feel like California  
And we both know it never rainy  
Like a barbeque in Georgia  
You're my perfect get away

There's nothing that I won't do just to make you smile  
Girl you something special  
You are  
So I never lie

Girl you just like summertime  
When I'm driving in my car with the top down, you're the one  
Girl the sun ain't got nothing on you  
You blow my mind  
Could be freezing, cold outside  
With you this skills feels like the one  
Girl you won my heart just like summertime, just like summertime

All the hard thing on the corner  
You're my glee up to an angel  
Love that good potato salad  
That big mama use to make

There's nothing that I won't do just to make you smile  
Girl you something special  
You are  
So I never lie

Girl you just like summertime  
When I'm driving in my car with the top down, you're the one  
Girl the sun ain't got nothing on you  
You blow my mind  
Could be freezing, cold outside  
With you this skills feels like the one  
Girl you won my heart just like summertime, just like summertime

There's nothing that I won't do just to make you smile  
Girl you something special  
You are  
So I never lie

Girl you just like summertime  
When I'm driving in my car with the top down, you're the one  
Girl the sun ain't got nothing on you  
You blow my mind  
Could be freezing, cold outside  
With you this skills feels like the one  
Girl you won my heart just like summertime, just like summertime  
Just like summertime, just like summertime baby, just like summertime  
Ooh yeah
