

Life Of The Party

Charlie Wilson

Tonight you're in for a special treat
I brought you roses just to sweep you off your feet
Oh, got a plenty of time for us to make love
But how 'bout first we celebrate what's up

How does this sound?
The city is ours
Let's take it downtown
To your favorite spot

Don't try to hide your smile
Let's go all out
The way we always do when we're together
Don't waste no time, let's go, my girl

Put on the dancing shoes tonight
Slip on the dress, gon' burn the light
All eyes on us 'cause we are the life of the party, baby, yeah

Sip a little somethin' to break the ice
Glass in the air, we're feelin' nice
Meet you on the dance floor, we're the life of the party, baby, yeah

Girl, the way we move, nobody does it better
Under the moon and stars
I could stay like this forever with you, girl
When the DJ play our song, we gotta get up
And show them how it's done, now I'm going

Put on the dancing shoes tonight
Slip on the dress, gon' burn the light
All eyes on us 'cause we are the life of the party, baby, yeah

Sip a little somethin' to break the ice
Glass in the air, we're feelin' nice
Meet you on the dance floor, we're the life of the party, baby, yeah

Off we go to the middle of the floor
Do your thing now, do your thing, girl
Off we go to the middle of the floor
Life of the party, yeah

Off we go to the middle of the floor
Do your thing now, do your thing, girl
Off we go to the middle of the floor
Do your thing, baby, yeah

The way we move, nobody does it better
Under the moon and stars
I could stay like this forever with you, girl
When the DJ play our song, we gotta get up
And show them how it's done

Put on the dancing shoes tonight
Slip on the dress, gon' burn the light
All eyes on us 'cause we are the life of the party, baby, yeah

Sip a little somethin' to break the ice
Glass in the air, we're feelin' nice
Meet you on the dance floor, we're the life of the party, baby, yeah

Put on the dancing shoes tonight
Slip on the dress, gon' burn the light
All eyes on us 'cause we are the life of the party, baby, yeah

Sip a little somethin' to break the ice
Glass in the air, we're feelin' nice
Meet you on the dance floor, we're the life of the party, baby, yeah

Off we go
Onto the floor
Life of the party, baby
