Love

It ain't that complicated girl all I do is upgrade em
So just say if you with it 'cause I can give it to you
What ya body saying
If you want it girl come get it
Get into something that you like
You know that me and you if it's cool need to do a few things
Make you good and show you'll be glad that you came
Girl all you gotta do is to let me come through 'cause I-I-
I I said I wanna give you

Love love love
I wanna give you love love love
I wanna give you love love love love love

And this is meaning something
I'm gonna do every thing that I can
gonna go and give up that cash
If it takes it just to get in that ass
Got something right here that's gonna last

Love love love love love
Let me give you love love love
Shorty let me show ya
That life with me is better for you

So just say if you want it
'cause I will give it to you
Love the way ya flirting
'cause you are the person that I love.
You know that me and you if it's cool and do a few things
Make you good and show you'll be glad if you came
Girl all you gotta do is to let me come through 'cause I wanna give you love

I wanna give you love (wanna give you all my time)
Wanna give you every thing that you needed
I wanna put you up, wanna take you out
(Never let you down)

Never wanna play around
I wanna let you know that you're always gonna have a man
This right here is gonna be
Like you never had it
So baby if you want it you can have it
Let me give you
Love love love
I wanna give you
Love love love
I wanna give you love love love love love
And this is meaning somethin'
I'm gonna do every thing that I can
gonna go and give that cash
If it takes it just to get on that ass
Got something right here that's gonna last
