

My Favorite Part Of You

Charlie Wilson

Baby, you're flawless, girl from your head to your feet
You outshine the diamond that's on your ring
You're just like a flower, every petal unique
But what's at the top of the list for me?

Could be your lips or your beautiful curves
Girl, I swear you're so damn sexy it hurts
I gotta tell ya, baby
It's your mind and your body, hold up, I'm not done
There's no way that I can chose just one
You're more than any man deserves

Oh, so many things that I like
I can't decide because every part of you is
My favorite part of you, oh!
No matter how hard I try
I can't decide because every part of you is
My favorite part of you, oh!

It's usually easy for me to make up my mind
I got no problems deciding... What we eat
What we're gonna see at the movies
But with you I'm greedy, I just got to have it all
Everything's at the top of the list for me

Could be your lips or your beautiful curves
Girl, I swear you're so damn sexy it hurts
I gotta tell ya, baby
It's your mind and your body, hold up, I'm not done
There's no way that I can chose just one
You're more than any man deserves

Oh, so many things that I like
I can't decide because every part of you is
My favorite part of you, oh!
No matter how hard I try
I can't decide because every part of you is
My favorite part of you, oh!

It's the way that you look, the way that you cook
You rub my back when I get home from work
The way that you dance I got no chance
I'm loving every part
