

New Addiction

Charlie Wilson

We been here way too long
Still up from the night before
Singin' the same old songs, on the sandstones
Smoke on the cigarettes is starting to get light
Right now all that I need is you right by my side

Girl, I need more more more
Than I ever had before
But I know-ow-ow
You can be my new addiction
Girl, I need more more more
So let's take it out the door
'Cause I know-ow-ow
You can be my new addiction

You got a beautiful heart and a beautiful soul
And those beautiful eyes for me
Oh when you walk into a room you distract my mind
But maybe distract is what I need
So the bottom of the bottle is reached and done
People making pickup calls on the phone
But it's your love gettin' me to
So I'm comin' home to do

Girl, I need more more more
Than I ever had before
But I know-ow-ow
You can be my new addiction
Girl, I need more more more
So let's take it out the door
'Cause I know-ow-ow
You can be my new addiction

Baby, oh yeah
Sounds good, mmmh
I need you to love me, love me, love me
Love me, love me, love me
Oh, I need you to love me, love me, love me
I need you to love me, love me, love me, oooh
One, two

Girl, I need more more more
Than I ever had before
But I know-ow-ow
That you can be my new addiction
Girl, I need more more more
So let's take it out the door
'Cause I know-ow-ow
You can be my new addiction

Baby, I need more
Than I ever had before
But I know-ow-ow
You can be my new addiction
Girl, I need more more more
So let's take it out the door
'Cause I know-ow-ow

You can be my new addiction
