

Precious Love

Charlie Wilson

Our sky would be clearer
The oceans would be more blue
Your smile would last longer
Your days wouldn't end so soon

And if I never told you, that you're I see
The way of my life would be incomplete
And I could never hurt you
You're the air I breathe

Baby all you need, is my precious love
My precious love, my precious love
Ooh baby-baby, all that you need is
My precious love, my precious love

Wine would taste sweeter
The music would sound so smooth
The wind would feel lighter
The nights would be made for two

And if I never told you, that you're I see
The way of my life would be incomplete
And I could never hurt you
You're the air I breathe

Baby all you need, is my precious love
My precious love, my precious love
Ooh baby-baby, all that you need is
My precious love, my precious love baby

Girl, you don't have to look further than me
If I saw that you want me, baby ask and receive
Hold out your hand, girl take a chance
Oh my-my-my-my-my
My precious love, my precious love, my precious love
Ooh baby-baby, all that you need is
My precious love, my precious love
My precious love, my precious love, baby

My precious love, my precious love, yeah
My precious love
