

Things You Do

Charlie Wilson

Stroke me like a lightning, baby
I had to break down to be around
Cuz you're that special lady
Girl, you know how I feel about you
You can make time stand still
Unless we are together
Every time the lights turn down
I want you with me, gimme everything you got

(It's the things you do, the things you say)
It turns me on (makes me feel this way)
(It's the things you do, the things you say)
It turns me on (makes me feel this way)

Honey, you're the sweetest candy
You got me fiendin' to taste that
You know how to make me happy
Just keep on givin' me love, your sweet love
Night after night I found myself dreamin'
Oh, about you! Day after day I know
What I'm missing, you know the deal

Swing up on me, baby
Sat down when I saw your face
Can ya flick it on me?
Invited me to your place
And you dropped the bomb
When you slipped on that lingerie
Yeah, ya got me, and I'm speechless
And the only thing that I can say
Is oooh eeoh
