

Kick The Bucket

Charlie Winston

If you say this is pop, to be singing to a tune with a
rhythm like this,
Would it be so unpopular for a singer like me to be
bringing up the fact that we're all gonna go ?
Some people swear, they say they know where.
For me it's a mystery. But which ever way you see it
you have to admit it and live it and live it !

We all Kick the Bucket in the end ! The end !
All the girls Kick the Bucket in the end ! The end !
And the boys Kick the Bucket in the end ! The end !
Yep ! We all Kick the Bucket in the end ! The end ! The
end ! The end ! The end !

Blew up my TV.
It was numbing my brain to be thinking the same as a
million other people
All feeling afraid of the same thing.
But there's is nothing to lose,
Cause we're all on a bike and we're cycling through,
Getting off on our injuries - but you gotta get back on
it and live it and live it to love it and live and love
life.

Cause we all Kick the Bucket in the end ! The end !
All the girls Kick the Bucket in the end ! The end !
And the boys Kick the Bucket in the end ! My friend !
Yep ! We all Kick the Bucket in the end ! The end ! The
end ! The end ! The end !

This is not a sad song !
I don't bring it up to get you down,
It's a celebration for all the red cells
going round and round in your body !

I don't mean to preach or to sound like a teacher. No !
I only wanna cut the crap and looking back, everybody's
had to face the facts.

we all Kick the Bucket in the end ! The end !
All the girls Kick the Bucket in the end ! The end !
And the boys Kick the Bucket in the end ! My friend !
Yep ! We all Kick the Bucket in the end ! The end ! The
end ! The end ! The end !
