## **Kick The Bucket**

## **Charlie Winston**

If you say this is pop, to be singing to a tune with a rhythm like this, Would it be so unpopular for a singer like me to be bringing up the fact that we're all gonna go ? Some people swear, they say they know where. For me it's a mystery. But which ever way you see it you have to admit it and live it and live it !

We all Kick the Bucket in the end ! The end ! All the girls Kick the Bucket in the end ! The end ! And the boys Kick the Bucket in the end ! The end ! Yep ! We all Kick the Bucket in the end ! The end ! The end ! The end ! The end !

Blew up my TV. It was numbing my brain to be thinking the same as a million other people All feeling afraid of the same thing. But there's is nothing to lose, Cause we're all on a bike and we're cycling through, Getting off on our injuries - but you gotta get back on it and live it and live it to love it and live and love life.

Cause we all Kick the Bucket in the end ! The end ! All the girls Kick the Bucket in the end ! The end ! And the boys Kick the Bucket in the end ! My friend ! Yep ! We all Kick the Bucket in the end ! The end ! The end ! The end ! The end !

This is not a sad song ! I don't bring it up to get you down, It's a celebration for all the red cells going round and round in your body !

I don't mean to preach or to sound like a teacher. No ! I only wanna cut the crap and looking back, everybody's had to face the facts.

we all Kick the Bucket in the end ! The end ! All the girls Kick the Bucket in the end ! The end ! And the boys Kick the Bucket in the end ! My friend ! Yep ! We all Kick the Bucket in the end ! The end ! The end ! The end ! The end !
