

Cup of the Sun

Charlotte Church

I took a cup of the sun and drank to a beautiful one
And I bottled the clouds and buried them under the ground
I took the form of a spoon and scooped out a piece of the moon
And all the things that I won I fed to a beautiful one

And everything is here and everything is yours my son
You're a song unsung
Sing it loud and sing it strong, you're a beautiful one

I took a bucket of sound just to spill it all over the ground
And all the air in my lungs I breathed for a beautiful one
Gathered the sparks in the sky and held them up so very high
But when I let them go it's gonna be one hell of a show

And everything is here and everything is yours my son
You're a song unsung
Sing it loud and sing it strong, you're a beautiful one
Here you are where you belong, my beautiful one
