

Death And Mathematics

Charlotte Church

Mistakes
Made by death and mathematics
Allow me to fall
Impossibly in love with you

As darkness falls
Seems to make the whole world
Disappear

These thoughts
These thoughts
Only seem to scatter away

Beneath
Beneath
Daylight but trust my love

They remain
Time chewed up by an impossible and absolute machine
Let's those blinding eyes amaze in my time
And my space

Darling you leave me amazed

If F is more than death
Then what could be the limit?
If C is you plus me
Then what could be the limit?
If F is more than death
Then what could be the limit?
If C is you plus me
Then what could be the limit?
If F is more than death
Then what could be the limit?
If C is you plus me
Then what could be the limit?

If time has no limit
Then how do we define ourselves?

By mistakes
