

# Entanglement

Charlotte Church

For why  
Are we  
Tangled up?

Interrelated  
Knit together by something  
Faster than light

For why  
Are we  
Tangled up?

I can't explain why I  
Love you little atom  
Just like I know you love me  
Precisely as much

Did we simply bump heads  
Or burn together in a cosmic crucible  
And spin off  
In opposite directions?  
Maybe love will react again

But against  
All odds  
We're tangled up

Maybe every atom  
Maybe every proton, quark and prion  
Will meet someday  
Until that day  
We're tangled up
