

## Logical World

Charlotte Church

You got the wrong shoes, honey, the wrong size  
You wear the left foot on the right side  
You got a sad laugh, honey, when you cry  
You know the answer still you ask why, you ask why

Walking in the sunshine in the middle of the night  
Painting pictures with the rain  
Been dreaming a real life and living at a dream  
I'm a mixed up girl, in a logical world

You got blue hair honey and... blond eyes  
Shocks are boring but the day today is a surprise  
You go a real no, honey, when you get high  
You give a warm welcome with a goodbye  
When you say goodbye

Walking in the sunshine in the middle of the night  
Painting pictures with the rain  
Been dreaming a real life and living at a dream  
It's me with the wrong size, me with the blond eyes

I laugh when I cry I'm the one who's asking why  
I get high when I get low and I just want to show  
I'm a logical girl in a mixed up world, mixed up world

Walking in the sunshine in the middle of the night  
Painting pictures with the rain  
Been dreaming a real life and living at a dream  
I'm a mixed up girl in a logical world

I've been walking in sunshine in the middle of the night  
I've been watching my pictures fade away in the rain  
I've been dreaming a real life and living at a dream  
I'm a mixed up girl in a logical world  
I'm a mixed up girl, I'm a mixed up girl...
