

## IRM

Charlotte Gainsbourg

Take a picture, what's inside?  
Ghost image in my mind  
Neural pattern like a spider  
Capillary to the centre

Hold still and press the button  
Looking through a glass onion  
Following the X-ray eye  
From the cortex to medulla

Analyze EKG  
Can you see a memory?  
Register all my fear  
On a flowchart disappear

Leave my head demagnetized  
Tell me where the trauma lies  
In the scan of pathogen  
Or the shadow of my sin
