

Up All Night

Charlotte Martin

It's 3 a.m. and I have been
In my head for quite some time.
Every fear, every tear has been swirling in my mind
And there are still a 100 reasons
I shouldn't walk away.
Do I love you if I leave you?
You had no name.

I was up all night
Waiting for some kind of miracle.
I was up all night
Feeling alone in the universe.
I was up all night.

When morning comes
I will tell you (tell you)
It's life I have to chase.
With every song that I sing
Will be written by your face.

And if you're really meant to be
Then you'll be back again.
And I watch as your beginning
Turns into the end.

I was up all night
Waiting for some kind of miracle.
I was up all night
Feeling alone in the universe.
I was up all night.
If it is you, or if it is me that you save
I'm still throwing it all away.
I was up all night.

With a kick inside
In the dark you hide.
And we both know how the end will be.
In your little tide (??),
With your eyes shut wide
And we both know how the end will be (how the end will be).

I was up all night
Waiting for some kind of miracle.
I was up all night
Feeling alone in the universe.
I was up all night.
If it is you, or if it is me that you save
I'm still throwing it all away.
