

Bullet

Charlotte Perrelli

Restless from the cradle
I've been living like a burning flame
Betting with my life
That love will play out like any other game
No end in sight
It's just another night

I can take a bullet
I can prove it
I can take a bullet
Watch me do it
Just like a work of art
It's coming through my heart
And breaks it all apart
But I can take a bullet
I can prove it

You threw me in the car and started
Driving back to my mistakes
Going through the years and speeding up
Till one of us will break
I'm gonna jump, I'm gonna run

I can take a bullet
I can prove it
I can take a bullet
Watch me do it
Just like a work of art
It's coming through my heart
And breaks it all apart
But I can take a bullet
I can prove it

This woman standing here
She knows the face of fear

I can take a bullet
I can prove it
I can take a bullet
Watch me do it
Just like a work of art
It's coming through my heart
And breaks it all apart
But I can take a bullet
I can prove it
