

Build Me The Moon

Charlotte Sometimes

Give me a moment
Give me a cold
Tell me anything as long as it's true.
Give me heartache
That's what you do
Tell me you want me, sick of being used.

I send my heart to you
But you never care
You never do.
So build me up bridges
Build me the moon
Tell me you love me
Tell me you'll love me soon
Yeahh, ohh

You didn't know that I cried.
In my room, every night.
Maybe it's not, cause of you
But it'd be easier if you needed me too.

I send my heart to you
But you never care
You never do
So build me up bridges,
Build me the moon
Tell me you love me
Tell me you'll love me soon
Yeahh, ohh

So build me up bridges
Build me the moon
Tell me you love me
Tell me you'll love me
I cannot stop
I cannot smile
I know you weren't meant to be
But I want you here with me.

So build me up bridges
Build me the moon
Tell me you love me

So build me up bridges
Build me the moon
Tell me you love me

So build me up bridges
Build me the moon
Tell me you love me
Tell me you'll love me soon
Yeahh, ohh
