

Build The Moon

Charlotte Sometimes

Give me warning
Give me a clue
Tell me anything
As long as it's true

Give me heartache
That's what you do
Tell me you want me
I'm sick of being used

I'll send my heart to you
But you never care
You never do

So build me your bridges
Build me the moon
Tell me you love me
Tell me you love me soon

Yeah, oh...

You didn't know
That I cry
In my room
Every night

Maybe it's not
'Cause of you
But it'd be easier
If you needed me too

I send my heart to you
But you never care
You never do

So build me your bridges
Build me the moon
Tell me you love me
Tell me you love me soon

Yeah, no...

So build me your bridges
Build me the moon
Tell me you love me
Tell me you love me
I cannot stop
I cannot smile
I know we weren't meant to be
But I want you here with me

So build me your bridges
Build me the moon
Tell me you love me

So build me your bridges
Build me the moon

Tell me you love me
Tell me you love me

So build me your bridges
Build me the moon
Tell me you love me
Tell me you love me soon

Yeah, no...
La-ah, la, la-ah, la, la-ah, la
Oh...
