## That's What You Do To Me

**Charly McClain** 

Love me high, love me low Love me till I don't know which way to go That's what you do to me Whoa, that's what you do to me

Love me wrong, love me right Got me long before you offer the night That's what you do to me Whoa, that's what you do to me

Your love is like a river an' somewhere in the middle We're caught between your heart an' your hand Each time I think it's real, it's such a helpless feelin' With you I never know where I stand

Just a touch takes my desire From your fryin' pan right into your fire That's what you do to me Whoa, that's what you do to me

Your love is like a river an' somewhere in the middle We're caught between your heart an' your hand Each time I think it's real, it's such a helpless feelin' With you I never know where I stand

Just a touch takes my desire From your fryin' pan right into your fire That's what you do to me Whoa, that's what you do to me

That's what you do to me Whoa, that's what you do to me That's what you do to me Whoa, that's what you do to me
