

The Very Best Is You

Charly McClain

Why would I want another when the very best is you?
There's so many out there cheatin', but you know I like bein' true
They're all searchin' for somethin' that I've already found in you
With all the love you've given, it's so easy to be true
Why would I want another when the very best is you?

Every time I look at you, love is all I see
Baby you're the greatest thing that's happened to me
You're all that I could ever want, it's easy to be true
Why would I want another when the very best is you?

You're all that I could ever want, it's easy to be true
Why would I want another when the very best is you?
When the very best is you
