## **Desire You**

Charon

Don't say a word, don't stay awake Rest for a while, for a life Sleep quiet my heart, I don't need you now

And it makes me want To fall

Darkness calling, come to reap me from my love I desire you, for all my heart I've come to this

Burn slow my heart, I won't weep you now

And it makes me want To die

Say one more prayer to fall desire Save one more heartbeat to cry
