Sorrowsong

This all you kept inside Once you gave it all Sorrow and despair Took me where I belong She was all I create She was all I craved Sorrow and despair Made me feel this way

This way I'll choose like you This heart I'll cease like you

White sheets around Rose in her hand And face alike she never had to cry This all I need to tell This all I had to weep Tomorrow comes with peace And peace is what I need Inside my heart it rains I crave no more to say

This way I'll choose like you This heart I'll cease like you

White sheets around Rose in our hands And faces like we never had to cry Rain fades today It rained all our lives Inside our hearts we never had to die

Charon
