

# LUST

Chase Atlantic

Long walk through the forest, come and find me  
Cold nights, dark sprites, sipping lightly  
I don't even wanna fuck, I just like you  
I thought I only liked drugs, I'm surprised too

Walk with me  
I'm looking for honesty  
Is that your boyfriend, he was watching again, girl think that he's onto me  
That doesn't bother me  
I deal with this constantly  
If he's got a problem then tell that lil' bitch to come over and talk to me

I'm almost too high for this  
I see your paranoia, I know it's scandalous  
Take a little dip of the candy  
You were supposed to get married  
See, you were supposed to-

Hard drugs  
No trust  
Fuck love we can do this shit forever if it's lust yeah  
Listen up yeah

Who cares?  
I give up  
I don't care if they don't like me, listen  
I don't give a fuck yeah  
I'll be falling in lust

See I been rolling like a ball for a week  
With my friends on the Benz  
Lockjaw for me, yuh  
I pray the medication slow me down  
But that shit doesn't work when you're around

I get nervous  
Like is it worth it?  
I know I'm fucking up his life, it's on purpose  
He doesn't deserve it  
I can see it in your eyes, you're the kind who'd let the flames take your life away

Hard drugs  
No trust  
Fuck love we can do this shit forever if it's lust yeah  
Listen up yeah  
Who cares?  
I give up  
I don't care if they don't like me, listen  
I don't give a fuck yeah  
I'll be falling in lust
