

Really?

Je ne comprend pas

En fait je ne sais pas pourquoi tu me fait comme ça, je crois

Je mérite mieux que toi, tu sais

Mais n'importe ce que tu fais je te veux

Et je me ne comprend pas, vraiment pas

Pourquoi je fais ça?

Pourquoi tu te fais ça?

Fraichement je ne sais pas, je sais plu

Ça doit arrêter, arrêter tout de suite

[Mitchel Cave:]

I'm feeling numb off of all of these Xans, yeah

I know it's time that I fucked up your plans

I wish I was more of a man

I wish I was more of a man

Oh, no, you don't understand

I neglected you again

She said, "Don't forget you owe me one"

Ninety-nine cent dreams, maybe you could show me some

She told me she loved me, but I do not deserve your love

I put me above you and honestly I think I fucked it up

I don't know why

I'm 'bout to ruin the Ozone

I know you're sitting alone

I made mistakes with these white lines

And I'm clouded by all of the smoke

I don't think I'll ever get sober, no

I don't think I'll ever get sober

[Christian Anthony:]

I'm bored out my mind again

If you need some company, call your friends

You told me I'm sick in the head, yeah

The sickness began with the meds

I might just jump off the ledge or drown in alcohol again

She said, "Don't forget you owe me one"

I need some reasons to live, maybe you could show me some

She told me she loved me but I do not deserve your love

The same person that I need is the one I'm running from

I don't know why

[Mitchel Cave:]

I'm 'bout to ruin the Ozone

I know you're sitting alone

I made mistakes with these white lines

And I'm clouded by all of the smoke

I don't think I'll ever get sober

I'm 'bout to ruin the Ozone

I know you're sitting alone

I made mistakes with these white lines

And I'm clouded by all of the smoke

I don't think I'll ever get sober

I don't think I'll ever get sober

I'm 'bout to ruin the Ozone  
I know you're sitting alone  
I made mistakes with these white lines  
And I'm clouded by all of the smoke  
I don't think I'll ever get sober  
I don't think I'll ever get sober  
Oh, no, no

I'm feeling numb off of all of these Xans  
I know it's time that I fucked up your plans  
I wish I was more of a man  
I wish I was more of a man  
Oh, no, you don't understand  
I neglected you again
