Run Away

Chase Atlantic

This is isn't the first time
We're running all of the red lights
You were tryna get in my head
I was tryna get in your bed
Hold up now, just a second
Back it up girl, where we're headed now?
So before you change your mind just

[Hook:]
Run away, run away with me
Run away, run away with me
Run away, run away with me
Now, now
Run away, run away with me
Run away, run away with me
Run away, run away with me
Now, now

I wasn't given a warning
It's three o'clock in the morning
Cause we've been circling all night long
Keep repeating the same damn song
Staring out of the window
Say the word and then we'll go
To any place that you feel at home
Cause I know that you feel alone

[Hook x2]
