

Why Stop Now

Chase Atlantic

I'm caught up in my self-loathe
Mitchel where's your cell phone, write this down
I'm geeking off these pills though
She can't even tell so

Why stop now, why stop now
Tell me if I can't come down
Then why stop now

Yeah, I've been doing this alone
They call it a problem but baby I already know
This shit is reliable people they just come and go
Then she told me that I'm deeper than anybody that she knows

And damn that feels good babe
Life in the fast lane
You live then you die babe
It's life in a fast way

So why stop now, why stop now
Tell me if I can't come down
Then why stop now, why stop now

I'm stuck in my conscience
She's lying on the floor and telling me nonsense
I'm floating around now my stomach in nauseous
And I keep doing this until I'm unconscious

And damn it feels good babe
Life in the fast lane
You live then you die babe
It's life in a fast way

So why stop now, why stop now
Tell me if I can't come down
Then why stop now

So why stop now, why stop now
Tell me if I can't come down
Then why stop now
Why stop now

(And I've been doing this until I'm unconscious...)
