There's still much to be done  
But look how far we've come

There's still much to be done  
But look how far we've come

There's still much to be done  
But look how far we've come

There's still much to be done  
But look how far we've come

There's still much to be done  
But look how far we've come

There's still much to be done  
But look how far we've come

There's still much to be done  
But look how far we've come

There's still much to be done  
But look how far we've come

There's still much to be done  
But look how far we've come

There's still much to be done  
But look how far we've come

There's still much to be done  
But look how far we've come

There's still much to be done  
But look how far we've come
