

# Mallory

Chase Coy

I wonder where you are tonight  
I wonder if I'm on your mind  
Cause darling I know that you've been on mine

I'm writing from a hotel room  
It's been so long since I've seen you  
Away from me cause I will be home soon

And I, I've been trying to find  
The perfect words to write to say you're always on my mind

Mallory, I've finally put your name into a song  
So when I play it on the road and everybody sings along  
They will know just who it is  
Who inspired me to write this melody,  
Mallory, Mallory

Your dark brown hair and hazel eyes  
The way your hands just fits on mine  
I wanna have you with me all the time

I know that it's been said before  
I may not sound original  
But every single day I love you more

And I, I've been trying to find  
The perfect words to write to say you're always on my mind

Mallory, I've finally put your name into a song  
So when I play it on the road and everybody sings along  
They will know just who it is  
Who inspired me to write this melody,  
Mallory

And if you're feeling lonely and I'm far away from home  
You can hear my voice just put this record on

Mallory, I've finally put your name into a song  
So when I play it on the road and everybody sings along  
They will know just who it is  
Who inspired me to write this melody,  
Mallory, Mallory, Mallory.
