

Mallory

Chase Coy

I wonder where you are tonight
I wonder if I'm on your mind
Cause darling I know that you've been on mine

I'm writing from a hotel room
It's been so long since I've seen you
Away from me cause I will be home soon

And I, I've been trying to find
The perfect words to write to say you're always on my mind

Mallory, I've finally put your name into a song
So when I play it on the road and everybody sings along
They will know just who it is
Who inspired me to write this melody,
Mallory, Mallory

Your dark brown hair and hazel eyes
The way your hands just fits on mine
I wanna have you with me all the time

I know that it's been said before
I may not sound original
But every single day I love you more

And I, I've been trying to find
The perfect words to write to say you're always on my mind

Mallory, I've finally put your name into a song
So when I play it on the road and everybody sings along
They will know just who it is
Who inspired me to write this melody,
Mallory

And if you're feeling lonely and I'm far away from home
You can hear my voice just put this record on

Mallory, I've finally put your name into a song
So when I play it on the road and everybody sings along
They will know just who it is
Who inspired me to write this melody,
Mallory, Mallory, Mallory.
