Chase Rice

Ready  
Set  
Let's roll  
Let's roll

Damn pretty girl you went done it again  
You've gone and turned your sexy all the way up to 10  
I've never seen a side ride seat looking so hot  
Baby, you rock, hit the spot like a fireball shot  
You've got me all high, head spinning around and around  
I'm down if you're down to burn down this town

Ready set let's roll,  
Ready set let's ride  
Get your little fine ass on the step  
Shimmy up inside,  
Just slide girl by my side girl  
Yeah, we can run this town  
I can rock your world  
We can roll 'em down fog 'em up  
Cruise around get stuck pedal to the metal  
'Till the sun comes up  
I made a deal with the man on the moon  
He's gonna put in some overtime, we've got all night  
Ready set let's roll  
Ready set let's ride  
Ready set let's roll

Where the good years and good times meet  
Girl we can rev it up right 'til we overheat  
Just forget about the time, get your lips on mine  
Gotta kiss you, get to know your smile  
On your mark, get set

Ready set let's ride

You got my heart bum bumping  
When I'm pulling up into your drive  
Let's hit it ninety to nothin',  
A couple kids running into the night

Ready set let's ride  
Get your little fine ass on the step  
Shimmy up on inside

Yeah we can run this town  
You know I'll rock your world  
C'mon  
Let's roll  
Let's ride  
Let's run this town tonight

Ready... Set... Let's roll...
