

# We Goin' Out

Chase Rice

"Yo Chase, what's up man? What you doing?"  
"C'mon man, what the hell you think I'm doing?"  
Heh, I'm going out"

We got the crew in the crew cab  
Rockin' that rebel flag  
All hats back like a redneck rat pack  
Boys looking cool  
Blowing smoke from the Mary Jane  
Girls hair down, frayed outs  
Brought that 'A' game

Kick back and watch how we do  
Like 'Project X'  
We're next on your YouTube  
Yeah

We goin' out  
We goin' out  
We got our eyes blurred right  
And the weird up loud  
We goin' out  
Yeah, we ignite the night in this sun burnt town  
Locked and loaded  
Rocked and rolling  
Driving our shit just like we stole it  
All night  
Good time  
Damn right  
We goin' out

It's going down like a whiskey waterfall  
So raise your cup, up, up  
For a rockstar roll call  
The Yeti's low quick  
Damn right, we're killing it  
Cole's rolling in  
Looks like we'll be chill in' it

We goin' out  
We goin' out  
We got our eyes blurred right  
And the weird up loud  
We goin' out  
Yeah, we ignite the night in this sun burnt town  
Locked and loaded  
Rocked and rolling  
Driving our shit just like we stole it  
All night  
Good time  
Damn right  
We goin' out

Now they say lightning don't strike twice  
But we here tonight, ain't we?

We goin' out

We goin' out  
We got our eyes blurred right  
And the weird up loud  
We goin' out  
Yeah, we ignite the night in this sun burnt town  
Locked and loaded  
Rocked and rolling  
Driving our shit just like we stole it  
All night  
Good time  
Damn right  
We goin' out  
We going out, out, out, out, we going out  
We going out, out, out, out, we going out  
We going out, out, out, out, we going out

What do you say dude? You down?  
Hell yeah, count me in for that man
