

Under Fire

Chasing Safety

Don't hold your breath if you think you mean a thing to me

You're the air that I exhale cause I don't need it anymore
If I was to breathe you back in id die upon this floor
I find myself thinking of times before I knew your name
I find myself thinking of times before you brought me shame

Don't hold your breath if you think you mean a thing to me

Don't tell me how to make it past tomorrow
Don't tell me how to live my life today
I wanna scream no
You won't make it pass tomorrow if you don't live through today

Bloody hands and bloodshot eyes fueled my dreams until your lie
s
You put the nail in the coffin used your words to cut worse than a knife
I find myself lying awake at night I find myself hoping you see the light
I held tight it was a bumpy ride it looks like its just about that time

Don't hold your breath if you think you mean a thing to me

Don't tell me how to make it past tomorrow
Don't tell me how to live my life today
I wanna scream no
You won't make it pass tomorrow if you don't live through today

One two three four
I'm under fire it seems like I'm at war
I'm under fire its like I'm at war

You're the air that I exhale cause I don't need it anymore
If I was to breathe you back in I'd die upon this fucking floor

Don't tell me how to make it past tomorrow
Don't tell me how to live my life today
I wanna scream no
You won't make it passed tomorrow if you don't live through today

One two three four
I'm under fire its like I'm at war
