

# Evil Awaits Us

Chastain

Deep in your mind  
Lives a force you can't ever find  
Breeding through all time  
It waits until it sees your sign

It has its hand on all that you think  
It seizes power in an eyes blink

Evil awaits us, The Evil, it awaits us!

Something calls you  
What it is deep inside you know  
The call feels so true  
You cannot stop it, it will show

It has its hands on all that you do  
It seizes power from me and you

Evil awaits us, The Evil, it awaits us!

Into the dark, I found the light  
Into the dark, I lost the fight  
Into the dark, his voice was clear  
Into the dark, the time is near

Evil awaits us, The Evil, it awaits us!

Fight the good fight  
But they never let you win  
Face all of your fears  
The long night has only just begun

It has its hands on all that you think  
It seizes power in an eyes blink

Evil awaits us, The Evil, it awaits us!

The evil, it awaits us  
The evil, the evil that you do  
Lookout, it awaits you
