

Fear in the Night

Cheap Sex

Do you take this man?
In sickness and in health
And will you love him forever?
And will you give him yourself?
And do you love this woman?
Will you treat her right?
Will you provide and protect her
each and every night?

Fear in the night
It is fear in the night

And now he drinks every night
And they don't talk anymore
She put aside her dreams
Because she just wants him to love her
And now her eyes are black
From the beatings that she took
And now their dreams are broken
And now both of their vows are broken...
