

## Living in Fear

Cheap Sex

look out my window  
i watch the sun go down.  
all day and night  
no one is around  
my body is numb  
and my mind filled with fear  
i never thought the war would come here!

living, living, living, living in fear  
we're living, living, living in fear  
im living, living, living in fear  
living, , living, living, living in fear!!!!
