

Give It Away

Cheap Trick

You know they say you best be careful what you're lookin' for
Everything you want in life to the girl nextdoor
Well it could happen to you now anyday
When someone you don't know could blow you away

Better watch out who you trust
And be careful what you say
'Cause you know you got too much
To give it away, give it away
Give it away, give it away

Along came Mary Jane and her friends
Knockin' at your door
Lookin' for some long-term suckers
Like she's has before

Did you notice me as I noticed you
From your face
Don't look so long
Cause' you're gone from your place

Better watch out who you trust
And be careful what you say
'Cause you know you got too much
To give it away

Now I don't care where you come from
Or what you do or say
'Cause you've got way too much to give it away

Something clicked and you're kickin' today
Something kicked in today
Feels so good, feels just right
Gotta find that fun everyday

Don't give it away, give it away
Give it away, give it away
Don't throw it away, give it away
Don't dream it away, give it awaaaaaaaaay!
