

# It's Only Love

Cheap Trick

Lonely days and lonely nights  
Seeming so much longer with the phone lines  
Torn between decisions wrong or right  
Ooh, I wish I knew the stars tonight  
'Cause you could look around and see  
The moving pictures of my mind's eye

It's only love, it's a miracle  
It's a wonder  
It's only love, it's a miracle

There we meet at some forgotten point  
On the streets of New York or was it London town?  
Maybe we were daydreaming out loud  
Or maybe we were nowhere, it doesn't matter now  
'Cause you mean more to me than any hope or any dream  
I know now

It's only love, it's a miracle  
It's a wonder  
It's only love, it's a miracle

When I say I miss you then I mean that I need you  
When I say I need you then I mean that I miss you now

It's only love, it's a miracle  
It's a wonder  
It's only love, it's a miracle

It's only love, it's a miracle  
It's a wonder  
It's only love, it's a miracle

It's only love, love, love, love, love  
It's only love, love, love, love, love

It's only love, it's a miracle  
It's a wonder  
It's only love, it's a miracle  
It's a wonder

It's only love, it's a miracle  
It's a wonder  
It's only love, it's a miracle  
It's a wonder

It's only love, it's a miracle  
It's a wonder  
It's only love, it's a miracle
