

Need Your Love

Cheap Trick

Need your love, need your love,
need your love, need your love
Fell apart, broke my heart,
need your love, need your love
If I could go around the world
I couldn't find another girl, need your love
Need your love, need your love,
need your love, need your love

You make me lonely
Why should you care
I give you everything
That's hardly fair
I give you lovin'
It's what you need
I give you everything
Everything in me
It might surprise you
But that's not the reason

Need your love, need your love, need your love, need your love
Fell apart, broke my heart, need your love, need your love
If I could go around the world
I couldn't find another girl, need your love
Need your love, need your love, need your love, need your love

You make me lonely
Why should you care
I give you everything
That's hardly fair
I give you lovin'
It's what you need
I give you everything
Everything in me
It might surprise you
But that's not the reason

Need your love.....
