Take want you want Giving back a steely stare Eyes black as night, I Can feel a shiver in the air

Sorry boy Sorry boy

Time everlasting
As a mother's blood runs cold
Blast everyone
There's no forgiveness
When your soul is sold

Sorry boy Sorry boy

No one will be there
To pick you up if you should fall
Burned every bridge
Your only friends
The shadow on the wall

Sorry boy Sorry boy

Sorry boy Sorry boy
