

The Doctor

Cheap Trick

Pay some attention
Want to get it right
Oh how about you
Mind's under pressure
Happens every night
Oh let it go

Love is like a knife
It cuts deep and wide
And I-I-I oughta know
Lay your hands on me
I prescribe a pill
Oh how about now
Tension's a buildin'
Need to let it out
Oh let it go

Love is like a knife
It cuts deep and wide
And I-I-I oughta know
Call me the doctor
Makes you feel good
Make it feel better now

Everybody should
It's my own opinion
It's my point of view
If you really need it now
Call me the doctor doctor feel good- hey

I make house calls
In the middle of the night
Oh to get you right
Come a little closer
Is it pleasure is it pain

Oh I've got the cure
Love is like a knife
It cuts deep and wide
And I-I-I oughta know
Call me the doctor
Makes you feel good

Make it feel better now
Everybody should
It's my own opinion
It's my point of view
If you really need it now
Call me the doctor doctor feel good hey

Love is like a knife

And I-I-I oughta know
Call me the doctor
