Time is runnin' out of control, ooh Help my dreams come true Time is runnin' out of control, ooh You make my dreams come true

Here comes the night

Gone are the days, yeah

When we could just sit here and talk for hours

Didn't have much to say

Time is runnin' out of control, ooh Help my dreams come true Time is runnin' out of control, ooh You make my dreams come true

Now everything seems so serious We all had our fun in the sun We all wanna take too much out of life Fooling ourselves in the long run

Time is runnin' out of control, ooh
Help my dreams come true
Time is runnin' out of control, ooh
You make my dreams come true

Tryin' to beat the clock
It never stops tickin' the time away
Tryin' to beat the clock
Never stops, never stops night or day

Time is runnin' out of control, ooh Help my dreams come true Time is runnin' out of control, ooh You make my dreams come true

Time is runnin' out of control, ooh Help my dreams come true Time is runnin' out of control, ooh You make my dreams come true

Time is runnin' out of control, ooh Help my dreams come true Time is runnin' out of control, ooh You make my dreams come true
