

# Desolation Of Eden

Chelsea Grin

How can you believe the lies bestowed on you by a false creed when the truth is right in front of you

They consume and hide the real truth to a superstitious fear and stitch the mouth of all who interfere

You look into the world with blind eyes always fearful of your demise but you people don't seem to realize is that you're fearing a fucking myth

A tale you comply with or be condemned to torment

Your loving idol would conflict woe and pain

I won't be deceived by serpents lies or cry out to the sky

This goes out to all of those who've ever feared to really live because of all the sin and blasphemy

Pursue what you really want and don't let anything stop you no matter what get what you want

Nothing bad will ever come from getting what you desire

Forget the rules no one will find out

Living your life this way will only bring great satisfaction so take it all and give nothing

Or are these the words of a snake

Now it's gone and you will feel the pain of life

You were blinded by your greedy mind and now it's time

This is now your new reality hope you enjoy the choices of your mortality

You will then feel what its' like to bleed

You will feel this pain everyday

Every ounce of blood that you spill is real

No more tree of life and it's all your fault
