

Unfaithful, backstabbing coward

I'm fucking sick of all the lies
And all the treachery
I was always by your side
And this is how you repay me

And after all these years
You fucking turned your back on me
I can't believe
I ever considered you family

I will never forget this knife
You placed in my back

Recreant, say it to my face
No more fucking games
This is where you pay
Recreant

Step the fuck back
And just bleed
You're a worthless
Gutless pig

Now you'll see that I'm not just
Something you can fucking cast aside
My whole life I stood right by your side
You fucking hypocrite

You make it seem like it was my fault
You lied
Don't forget I know exactly what you did

I'm fucking sick of all the lies
And all the treachery
I was always by your side
And this is how you repay

And after all these years
You fucking turned your back on me?
I can't believe
I ever considered you family

I will never forget this knife
You placed in my back

Recreant, say it to my face
No more fucking games
This is where you play
Recreant

You are dead to me
