Unfaithful, backstabbing coward

I'm fucking sick of all the lies
And all the treachery
I was always by your side
And this is how you repay me

And after all these years
You fucking turned your back on me
I can't believe
I ever considered you family

I will never forget this knife You placed in my back

Recreant, say it to my face No more fucking games This is where you pay Recreant

Step the fuck back And just bleed You're a worthless Gutless pig

Now you'll see that I'm not just Something you can fucking cast aside My whole life I stood right by your side You fucking hypocrite

You make it seem like it was my fault You lied Don't forget I know exactly what you did

I'm fucking sick of all the lies
And all the treachery
I was always by your side
And this is how you repay

And after all these years
You fucking turned your back on me?
I can't believe
I ever considered you family

I will never forget this knife You placed in my back

Recreant, say it to my face No more fucking games This is where you play Recreant.

You are dead to me
