

# Waste Away

Chelsea Grin

Come on baby drink it down  
I'm always questioning how you let me drown

You are the warmth that I more  
So set back, relax, kick back  
While we drink away our pain

Why you let me drown

The only smile I seek comes from  
The bottom of the bottle I drink

Waste away  
We did it for the fun  
We did it for the pain  
Waste away  
Let's drink until the sunlight  
Casts us all away

Waste away  
We did it for the fun  
We did it for the pain  
Waste away  
Let's drink until the sunlight  
Casts us all away

I don't care what they say  
Let's drink until the sunlight  
Casts us all away

Waste away  
We did it for the fun  
We did it for the pain  
Waste away  
Let's drink until the sunlight  
Casts us all away

Waste away  
We did it for the fun  
We did it for the pain  
Waste away  
Let's drink until the sunlight  
Casts us all away

Help me, dear god won't someone help me  
To stop the bleeding  
Please someone take my hand  
My thoughts misleading  
The only demon I believe in is myself

Waste away  
We did it for the fun  
We did it for the pain  
Waste away  
Let's drink until the sunlight  
Casts us all away

Waste away  
We did it for the fun  
WE did it for the pain  
Waste away  
Let's drink until the sunlight  
Casts us all away
